

Guard your assets with The Sentinel

Subscription-based, wireless condition monitoring

The Sentinel is ifm's new condition monitoring offering that provides measurement as a service!

We can protect your equipment, improve uptime and availability of your asset and enhance overall equipment effectiveness.

The Sentinel will:

- Increase your machine uptime and availability
- Improve safety through remote monitoring and reduced maintenance
- Improve asset performance by planning maintenance better
- Prevent costly downtime

GO GREEN WITH THE SENTINEL

The Sentinel will suit you if you're looking for a quick, easy to implement solution that doesn't require IT to manage software licenses or change infrastructure. The subscription-based service means payments are straightforward and you will be provided with useful, actionable insights soon after set up.

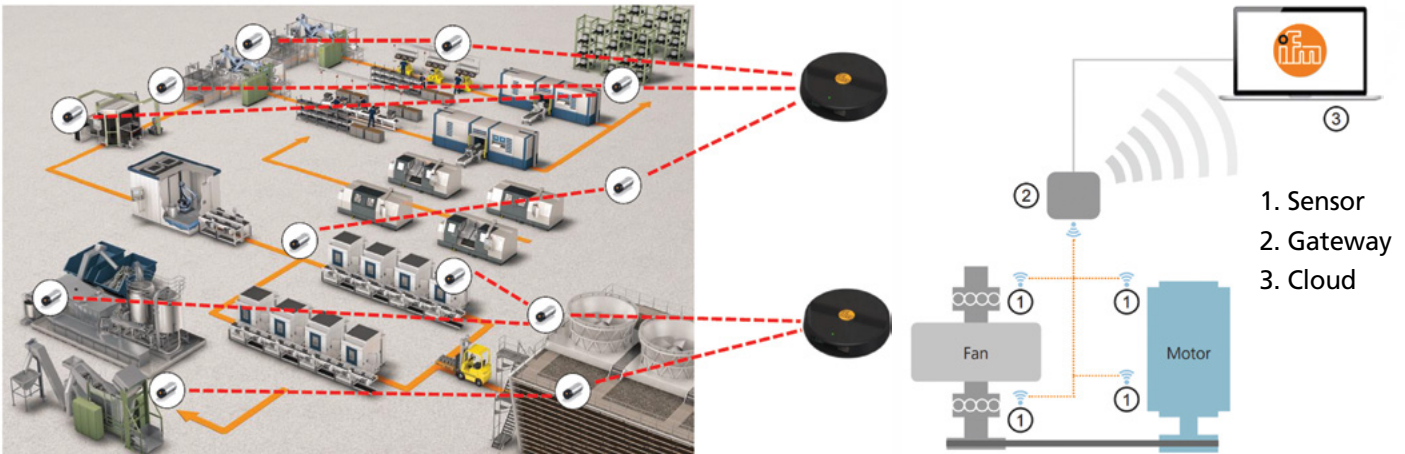

Subscription-fee plans

The listed price is a minimum monthly cost per measurement point, meaning you only pay for what you want to measure.

Number of measurement points	1	2	4	8+
Minimum monthly cost per point of measurement	\$75	\$45	\$30	\$20

KEEP YOUR EQUIPMENT, STAFF AND ENVIRONMENT SAFE WITH THE SENTINEL

- Quick and easy integration thanks to wireless operation
- Return of Investment (ROI) – Your Sentinel pays its own cost in 3-12 months
- Peace of mind that your assets are working as their best while you're away

Not sure where to start?

Give us a call and ask to talk to our condition monitoring specialists, we provide free consultation services.

At the end of the 48-month subscription ifm can organise the return of the sensors for responsible recycling as they will require replacing with new sensors. The gateway will still be operational and there is the opportunity for a reduced subscription payment if the customer retains the gateway for future use with new sensors. In the event that the contract is terminated prior to the end of the term specified, the terminating party shall be liable for payment of the remaining term of the agreement. The remaining term shall be calculated as the number of months remaining in the term multiplied by the monthly rate specified.
