

In touch with customers. In touch with success.

A solution to the customer...

Are you in technical sales role or looking to start?

ifm electronic:

In existence for almost 50 years, ifm electronic is global organisation specialising in the manufacture and distribution of sensing and control products for automation. The products and services offered are recognised as being at the forefront of innovation and to the highest quality.

The role:

Field Sales Engineer

ifm electronic is looking for a high quality individual to join the sales team. As part of this vibrant team your role will be manage your accounts, prospects, and grow the business with them. Part of this role will also involve generating technical proposals and project management, making the role varied, challenging but ultimately very rewarding. A growing customer base alongside a fantastic product portfolio with new innovative products coming regularly make this a fantastic opportunity for you to develop your career with a world-class employer.

Person:

Innovative, positive attitude and tenacity are essential attributes along with a desire to develop and learn. You must be capable of using your acquired knowledge, skills and abilities to make ifm the preferred choice. You will also need commercial awareness, self-motivation and the determination to succeed.

"The jobholder is a key contributor to the company's goal of providing the highest quality service/solutions to customers and becoming the leading supplier for automation control systems and sensors in industry"

Experience:

Ideally educated to a minimum of ONC/HNC standard, you possess a sound electrical knowledge, preferably enhanced through practical experience in industry. A knowledge of PLCs and field bus system such as EthernetIP/Profinet would be advantageous but not essential.

Interested

You must currently reside in the UK and be able to provide the appropriate documentation to work in the UK. Email enclosing your CV to Sara Meade sara.meade@ifm.com

Full product training would be provided.

Very competitive salary, fully expensed company car plus various other benefits.
