

# E60076

## Roda pengukur

MEASURING WHEEL U:500 N:10

| Aplikasi              |                                              |
|-----------------------|----------------------------------------------|
| Desain                | karet                                        |
| Kondisi pengoperasian |                                              |
| Suhu sekitar          | [°C] -30...80                                |
| Data teknis           |                                              |
| Berat                 | [g] 519                                      |
| Diameter bagian dalam | [mm] 10                                      |
| Diameter eksternal    | [mm] 159.16                                  |
| Material              | roda: aluminium; karakteristik permukaan: PU |
| Torsi pengencangan    | [Nm] 3; (Sekrup pemasangan)                  |
| Kekerasan permukaan   | 60 Shore A                                   |
| Lingkar               | [mm] 500                                     |
| Keterangan            |                                              |
| Jumlah paket          | 1 buah                                       |
