QMC001

**Licence for the communication with diagnostic electronics for vibration sensors**

moneo edgeConnect VSE LIC

Application	
Application	communication interface for ifm VSE diagnostic electronics for vibration sensors
Connectivity	Parameterised monitoring objects are read from the connected VSE diagnostic electronics and provided to the moneo apps in a structured form
Data management	providing diagnosis objects and further process and meta data from ifm VSE diagnostic electronics for vibration analysis
	Provision of VSE object values for further processing and monitoring in moneo RTM
	provision of meta data such as VSE serial number, object names and parameterised units of measurement
	parallel detection of the calculated diagnosis and monitoring objects for provision in moneo RTM for continuous condition monitoring
	simultaneous provision of the detected object values and the currently valid parameterised variant switching to condition monitoring

QMC001

Licence for the communication with diagnostic
electronics for vibration sensors

moneo edgeConnect VSE LIC

Software / programming	
Language	German; English; French; Italian; Spanish; Portuguese; Chinese; Japanese; Korean; Russian
Data carrier	download
Type of licence	single licence
Licence class	full version

System requirements	
Additionally required software	moneo software download
