

E35064

Cooling jacket for infrared temperature sensors

COOLING JACKET

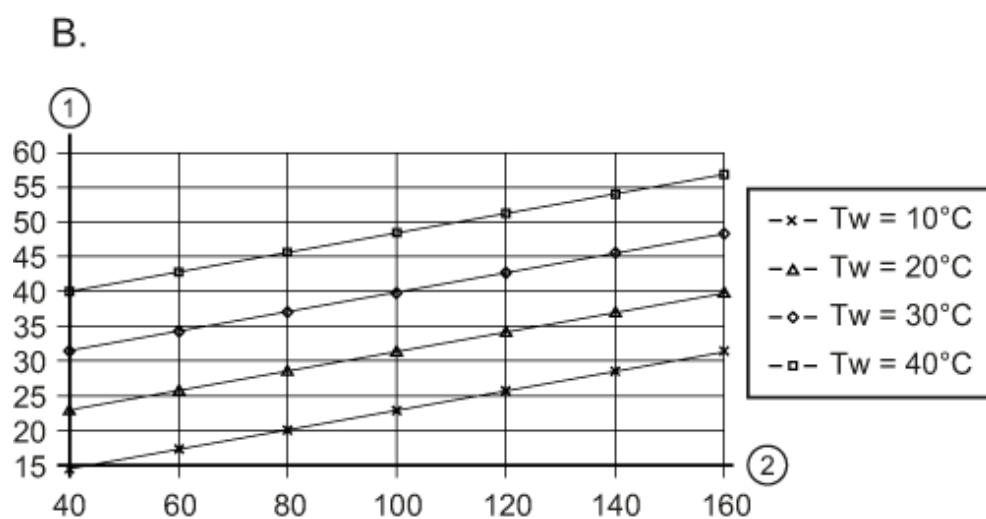

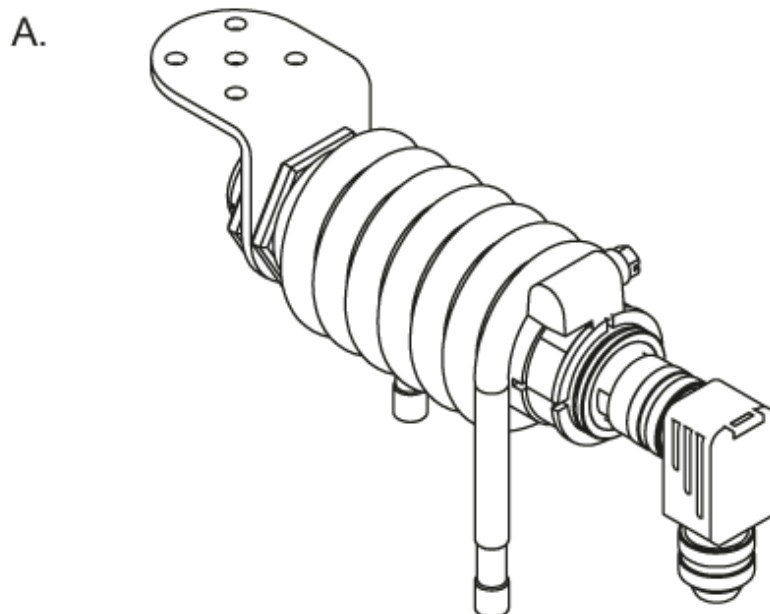

Application		
Design		for infrared temperature sensors TWxxxx, M30
Installation		sensor cooling (air or water); (TW)
Pressure rating	[bar]	6
Mechanical data		
Weight	[g]	388.6
Materials		brass; copper; steel galvanised
Remarks		
Pack quantity		1 pcs.

Cooling jacket for infrared temperature sensors

COOLING JACKET

Diagrams and graphs

A Installation

B cooling performance

inside temperature as a function of the outside temperature

T_w = cooling water temperature 1.6 L/min

1: inside temperature [°C]

2: outside temperature [°C]
