## Cooling element for 3D cameras

COOLING ELEMENT 1 SMART CAM FF

### Mechanical data

|                  |     |                                                   |
|------------------|-----|---------------------------------------------------|
| Weight           | [g] | 493                                               |
| Type of mounting |     | panel/surf.                                       |
| Material         |     | Cooling element: AlSi1MgMn; Heat conductor: AlMg3 |

### Accessories

|                |                                 |
|----------------|---------------------------------|
| Items supplied | Cooling element: 1              |
|                | Heat conductor: 1, fitted       |
|                | cylinder screws: 2 x M5 x 70    |
|                | countersunk screws: 4 x M5 x 16 |
|                | Clamp                           |
|                | installation instructions       |

### Remarks

|               |        |
|---------------|--------|
| Pack quantity | 1 pcs. |
