

E35064

Cooling jacket for infrared temperature sensors

COOLING JACKET

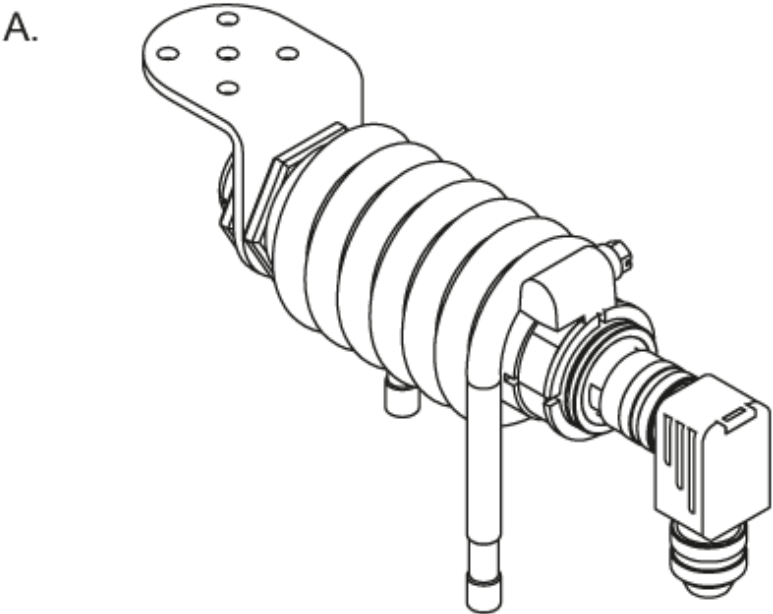

Application		
Design		for infrared temperature sensors TWxxxx, M30
Installation		Sensor cooling (air or water); (TW)
Pressure rating	[bar]	6
Mechanical data		
Weight	[g]	388.6
Material		brass; copper; steel galvanized
Remarks		
Pack quantity		1 pcs.

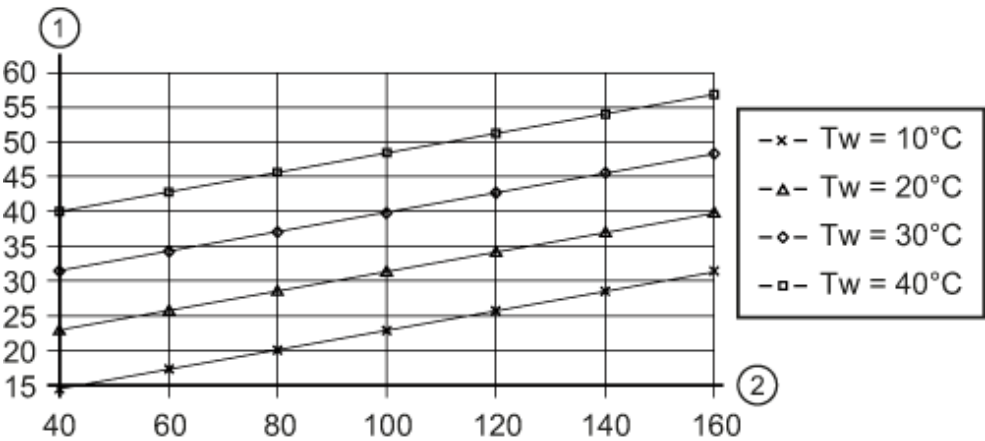

Cooling jacket for infrared temperature sensors

COOLING JACKET

Diagrams and graphs

B.

- A Installation
- B cooling performance
- inside temperature as a function of the outside temperature
- Tw = cooling water temperature 1.6 L/min
- 1: inside temperature [°C]
- 2: outside temperature [°C]
