## E40159

## Process adapter for small volumetric flow quantities

FLOW ADAPT SF PTFE

| Application                  |          |                                                                                                               |
|------------------------------|----------|---------------------------------------------------------------------------------------------------------------|
| Design                       |          | for flow sensors with ceramic probe G <sup>1</sup> / <sub>4</sub>                                             |
| Installation                 |          | via internal G1/8A male thread, any mounting position                                                         |
| Medium temperature           | [°C]     | 080                                                                                                           |
| Pressure rating              | [bar]    | 30                                                                                                            |
| Measuring/setting rang       | le       |                                                                                                               |
| Flow range                   | [ml/min] | 250                                                                                                           |
| Tests / approvals            |          |                                                                                                               |
| Pressure equipment directive |          | A possible classification to PED depends on the application and has to be carried out by the user / operator. |
| Safety instructions          |          | The compatibility between medium and product material has to be checked in all applications.                  |
| Mechanical data              |          |                                                                                                               |
| Weight                       | [g]      | 48                                                                                                            |
| Material                     |          | PTFE                                                                                                          |
| Sensor connection            |          | G 1/4                                                                                                         |
| Process connection           |          | G 1/8                                                                                                         |
| Remarks                      |          |                                                                                                               |
| Remarks                      |          | Can only be used in combination with the flow sensor's relative operating mode.                               |
| Pack quantity                |          | 1 pcs.                                                                                                        |
